Software Development road map

2007

Develop Human Resource Management Systems

Human Resource Management (HRMI)

2014

We, Prosoft HCM Company have started developing the Prosoft ESS system to support the work of the HR department, aiming to reduce work processes and make tasks easier with a web application.

Employee Self Service (ESS), web application

2017

We have started developing features for both HRMI and ESS systems to enhance their capabilities. Recognizing the importance of human resource development within organizations, we have developed the Prosoft HCM system to increase the potential of employee in organization.

Human capital Management (HCM)

2020

Develop the HR Cloud management system to be easily accessible through web and mobile applications, meeting the needs of digital-era SMEs.

HR On Cloud Platform (HRCloud)
